9:00 AM	Co-Organisers Welcome Addresses		
9:15 AM	<ul style="list-style-type: none"> . Jonathan Grant, Council Chairman - IETA . William Acworth, Head of Secretariat - ICAP <p>Register here</p> <p>Organised by: International Carbon Action Partnership (ICAP) & International Emissions Trading Association (IETA)</p> 		
9:15 AM	Opening Keynote Addresses		
9:45 AM	<p>Moderator: Jonathan Grant, Council Chairman - IETA</p> <p>Keynote Speakers:</p> <ul style="list-style-type: none"> . Bertrand Piccard, Chairman - Solar Impulse Foundation: 'Vision 2050' . Kevin Rudd, President of the Asia Society Policy Institute (ASPI) & Former Prime Minister, Australia: 'The Importance of Governments Putting a Price on Carbon and The International Landscape for Climate Action in 2021' <p>Register here</p> <p>Organised by: International Carbon Action Partnership (ICAP) & International Emissions Trading Association (IETA)</p> 		
9:45 AM	The Role of Carbon Markets in Recovering from COVID		
10:45 AM	<p>Worldwide, carbon markets play a vital role in supporting climate ambition. Amid the backdrop of COVID impacts and economic recoveries, growing attention is being paid to the promise of carbon markets to efficiently reach climate goals while simultaneously supporting other socio-economic objectives. Today's mature markets, hold years of experience. How are today's major carbon markets evolving and weathering the challenges of 2020? How are regions cooperating to strengthen market resiliency, address competitiveness concerns, and build cross-border alignment and alliances? And what's in store for emerging carbon markets?</p> <p>Moderator: Constanze Haug, Executive Board Member - adelphi</p> <p>Key Address: Valvanera Ulargui, Director General, Spanish Office for the Climate Change - Ministry for the Ecological Transition and the Demographic Challenge (MITECO)</p> <p>Speakers:</p> <ul style="list-style-type: none"> . Frank Rijsberman, Director General - Global Green Growth Institute (GGGI) . Joan MacNaughton, Chair of the Board - Climate Group . Tom Howes, Head of Energy and Environment Division - International Energy Agency (IEA) <p>Register here</p> <p>Organised by: International Carbon Action Partnership (ICAP) & International Emissions Trading Association (IETA)</p>

Time CET	NOVEMBER 11th		
10:45 PM - 11:15 PM	<p>In Conversation with Mark Lewis: The Future of Carbon Pricing in Europe</p> <p>Join carbon market expert Mark Lewis in conversation with IETA to discuss the changing face of the European Carbon Market. This informal conversation will look at the key challenges facing the EU ETS as it moves to align with Net-Zero.</p> <p>Facilitator: Adam Berman, EU Policy Director - IETA</p> <p>Speaker: . Mark Lewis, Global Head of Sustainability Research - BNP Paribas</p> <p>Register here</p> <p>Organised by: International Emissions Trading Association (IETA)</p> 	<p>In Conversation with Justin Macinante: Effective Global Carbon Markets – Networked Emissions Trading using Disruptive Technology</p> <p>The event explores the proposal detailed in my recent book of a model that can connect carbon pricing mechanisms of different jurisdictions, so that their policies and programmes are more effective and operate more efficiently. Importantly, it also advances a governance structure for such networked markets within the policy and regulatory setting of the Paris Agreement.</p> <p>Facilitator: Emma Krause, Project Manager - ICAP</p> <p>Speaker: . Justin Macienante, Edinburgh Law School - University of Edinburgh</p> <p>Register here</p> <p>Organised by: International Carbon Action Partnership (ICAP)</p> 	
11:15 AM - 12:15 PM	<p>Ensuring European Industry Thrives on a Net Zero Journey</p> <p>Europe's heavy industry is responding to the European Green Deal by developing plans for a net zero future. This session assesses how companies are reacting to robust emissions pricing and prospects for deep decarbonisation. The EU ETS is due to see sweeping changes over the coming decade, with further tightening expected and a carbon border adjustment mechanism under discussion as an alternative form of carbon leakage protection. This session will assess the impacts for companies and how they are managing the risks.</p> <p>Moderator: Ben Garside, Founder & Director - Carbon Pulse</p> <p>Speaker: . Milan Elkerbout, Research Fellow - Centre for European Policy Studies (CEPS) . Cedric de Meeus, Head, Group Public Affairs, LafargeHolcim . Tim Atkinson, Director, Sales and Trading, CF Partners</p> <p>Register here</p> <p>Organised by: Carbon Pulse</p>	<p>Policy Approaches – How to Increase Ambition Through Large Scale Carbon Trading</p> <p>The crediting of national policies, never possible under the Kyoto Protocol-era mechanism of CDM, but now feasible under the broader rules of Article 6 will allow for scaled-up carbon transactions. This session will discuss how the appropriate application of policy approaches may be the trigger needed to open the gates for carbon finance to help fund the COVID recovery. We will see how various institutions' work in this space has progressed and debate the ongoing outstanding issues.</p> <p>Moderator: Fenella Aouane, Principal Green Finance Specialist - GGGI</p> <p>Speakers: . Sigurd Klakeg, Deputy Director General - Norwegian Ministry of Climate and Environment . Axel Michaelowa, Managing Director - Perspectives Climate Group . Petr Charnik, Environmental Specialist - World Bank . Pranab Baruah, Principal Specialist - GGGI</p> <p>Register here</p> <p>Organised by: Global Green Growth Institute (GGGI) & Norwegian Ministry of Climate and Environment (NMCE)</p>  	<p>Carbon Trading Contest</p> <p>The AirCarbon Carbon Trade Contest is a 30 minute, friendly competition. Social in nature, you can join and experience how easy it is to buy and sell Carbon Credits. Each trader will start with a virtual portfolio. Traders can buy and sell ACCTs and ACNTs freely on the exchange. Traders are reminded that competing traders are market savvy and enter the trading system with a predetermined idea of where these markets will trade. The WINNER will be the one who ends with the highest NAV and win an Apple Watch.</p> <p>Moderator: Tom Herman, VP Business Development - AirCarbon</p> <p>Speaker: . William Pazos, Chief Operating Officer - AirCarbon</p> <p>Register here</p> <p>Organised by: AirCarbon Exchange</p> 

Legend:	Plenary Session	Side Event Session	Interactive Session
Time CET	NOVEMBER 11th		
12:30 PM - 1:30 PM	<p>Where will the Carbon Offsetting and Reduction Scheme for International Aviation (CORSA) fly?</p> <p>The COVID-19 pandemic has severely affected the aviation sector. The crisis has reduced aviation demand and may have a lasting impact on the sector. This will also affect the future of CORSIA adopted by the International Civil Aviation Organization (ICAO). In response, ICAO decided to change CORSIA's baseline to 2019 for the pilot phase from 2021 to 2023. The overall goal and design of CORSIA will also be reviewed in 2022. At the same time, the EU will deliberate how to amend its ETS in a way that is consistent with the EU's 2030 climate objectives.</p> <p>Moderator: Stephanie La Hoz Theuer, Senior Advisor - adelphi</p> <p>Speakers:</p> <ul style="list-style-type: none"> . Michel Adam, Assistant Director, Aviation Environment - IATA . Lambert Schneider, Research Coordinator for International Climate Policy - Oeko-Institut . Andrew Murphy, Aviation Director - Transport & Environment . Eva Weightman, Aviation Manager - IETA . Gilles Dufrasne, Policy Officer - Carbon Market Watch . Peter Liese, Member - European Parliament <p>Register here</p> <p>Organised by: Adelphi & Oeko Institut</p>	<p>Use of Cooperative Approaches to Trigger Transformative Development</p> <p>This side event will explore how cooperative approaches can support countries to enhance their NDC and strengthen transformative developments. Two new German projects will be presented. Firstly, the new capacity building project for countries, which have an interest in developing a strategy to use the international carbon market mechanism to increase ambition of the NDC over time. Secondly, the R&D project to classify the transformative potential of activities in order to optimize the design and use of Article 6.</p> <p>Moderator: Thomas Forth, Senior Advisor - Federal Ministry of the Environment, Nature Conservation and Nuclear Safety (BMU)</p> <p>Speakers:</p> <ul style="list-style-type: none"> . Malin Ahlberg, Deputy Head Division "European Climate and Energy Policy, New Market Mechanisms"- Federal Ministry of the Environment, Nature Conservation and Nuclear Safety (BMU) . Anne Götzing, Advisor - German Environment Agency (UBA) . Karen Olsen, Senior Researcher - UNEP DTU Partnership . Stephan Hoch, Managing Director - Perspectives Climate Group <p>Register here</p> <p>Organised by: German Environment Agency & BMU</p>  	
1:30 PM - 2:00 PM	<p>In Conversation with the Eastern and West African Alliances on Carbon Markets and Climate Finance</p> <p>Insights and progress of the Alliances.</p> <p>Facilitator: Samba Fall, Program Manager - ENDA Energie/CTCN</p> <p>Speakers:</p> <ul style="list-style-type: none"> . Bianca Gichangi, Coordinator - Eastern Africa Alliance . Ousmane Fall Sarr, Coordinator - West African Alliance <p>Register here</p> <p>Organised by: Federal Ministry for Environment, Nature Conservation and Nuclear Safety (BMU), Germany</p> 	<p>In Conversation with Karsten Neuhoff</p> <p>Climate contributions as a key piece of the industrial decarbonization puzzle.</p> <p>Facilitator: William Acworth, Head of Secretariat - ICAP</p> <p>Speaker:</p> <ul style="list-style-type: none"> . Karsten Neuhoff, Head, Climate Policy Department - German Institute for Economic Research (DIW) <p>Register here</p> <p>Organised by: International Carbon Action Partnership (ICAP)</p>

Time CET	NOVEMBER 11th		
2:00 PM - 3:00 PM	<p>Mind the Gap: Potential Transition of CDM to the Article 6.4 Mechanism - Issues and Options</p> <p>This panel discussion brings together Article 6 negotiators, experts and private sector representatives to discuss different perspectives on the possible transition from the Kyoto Protocol mechanisms to Article 6.4. The panel will discuss technical aspects related to the possible transition, such as transition of activities, credits, governance and regulatory requirements related to projects and credits.</p> <p>Moderators: Luca Lo Re, Energy and Climate Policy Analyst - IEA & Stefano De Clara, International Policy Director - IETA</p> <p>Presenters:</p> <ul style="list-style-type: none"> . UNFCCC Secretariat Representative . Lambert Schneider, Research Coordinator for International Climate Policy - Öko-Institut <p>Speakers:</p> <ul style="list-style-type: none"> . Sandra Greiner, Article 6 Negotiator, The Gambia . Simon Fellermeier, Senior Policy Adviser - Federal Office for the Environment, Switzerland . Ken Newcombe, Chief Executive Officer & Co-Founder - CQuest Capital . Tba - UNFCCC Negotiator <p>Register here</p> <p>Organised by: International Energy Agency (IEA) & International Emissions Trading Association (IETA)</p>	<p>China's National Carbon Market: Status and Future Prospects</p> <p>China is in the process to prepare for the world's largest carbon market. It is also developing the 14th Five Year Plan (2021-2025) with specific climate targets and policies. In light the recent announcement of the country to reach carbon peak by 2030 and neutrality three decades later, ICAP and IETA are convening a panel of renowned experts to discuss the prospects of China's ETS.</p> <p>Moderator: Lina Li, Project Manager - ICAP</p> <p>Keynote Address: Duan Maosheng, Director of China Carbon Market Center (CCMC) - Tsinghua University</p> <p>Panel Discussion:</p> <ul style="list-style-type: none"> . Xiaolu Zhao, Senior Manager, Global Climate Change - EDF . Shu Wang, Senior Manager - ICF International . Caspar Chiquet, Commercial Projects Manager - BP Energy Asia . Stian Reklef, Asia-Pacific Director - Carbon Pulse <p>Closing Remarks: William Acworth, Head of Secretariat - ICAP</p> <p>Register here</p> <p>Organised by: International Emissions Trading Association (IETA) & International Carbon Action Partnership (ICAP)</p>	<p>Emissions Trading and Industrial Transformation</p> <p>Which role can an ETS play in assisting the transformation to a decarbonised economy, including heavy industry? Will a carbon price be sufficient to deliver the breakthrough innovations and to trigger the necessary investments – and disinvestments – from fossil-based to decarbonised value chains? If not, which other measures can complement and flank the ETS, such as a carbon border adjustment mechanism, consumption charges, or carbon contracts for difference?</p> <p>Moderator: Tba</p> <p>Speakers:</p> <ul style="list-style-type: none"> . Oliver Sartor, Senior Advisor Industry - Agora Energiewende . Carolyn Fischer, Professor, Vrije Universiteit Amsterdam & Senior Fellow, Resources for the Future (RFF) . Karen Perrey, Energy Strategy and Policies - Covestro (TBC) . Damien Meadows, Advisor on European and International Carbon Markets - DG CLIMA, EU Commission <p>Register here</p> <p>Organised by: Ecologic</p>

4:45 PM - 5:45 PM	<p>Scaling Carbon Pricing Instruments in Developing Countries</p> <p>For nearly a decade, the World Bank's Partnership for Market Readiness (PMR) has supported emerging markets and developing countries to design and deploy carbon pricing and market instruments (ETS, carbon tax, crediting mechanisms) to facilitate cost-effective mitigation action. As PMR comes to a close this year and the World Bank gears up to launch a new 10-year successor program, the Partnership for Market Implementation (PMI), this panel invites countries to reflect on the role carbon pricing can and has played as part of a broader decarbonization agenda.</p> <p>Welcome: Venkata Putti, Program Manager - World Bank</p> <p>Opening Remarks: Sneha Lala, Program Manager - UK BEIS</p> <p>Speakers:</p> <ul style="list-style-type: none"> . Olga Yukhymchuk, Ministry of Environmental Protection and Natural Resources - Ukraine . Afef Jaafar, Agence Nationale pour la Maitrise de l'Energie - Tunisia . Felipe De Leon, Ministry of Environment and Energy - Costa Rica <p>Register here</p> <p>Organised by: Partnership for Market Readiness (PMR), World Bank & UK Department for Business, Energy and Industrial Strategy (BEIS)</p>   <p>WORLD BANK GROUP</p> 	<p>Post US Election 2020 Discussion</p> <p>The 2020 Presidential election promises to be another climate policy turning point. Will Democrats try to implement a version of the Green New Deal? Or will states and corporates continue to press ahead on their own? This panel of political experts will discuss what the newly elected or re-elected Administration and Congress means for climate policy domestically and internationally.</p> <p>Moderator: Dirk Forrister, President & CEO - IETA</p> <p>Speakers:</p> <ul style="list-style-type: none"> . Beth Viola, Senior Policy Advisor - Holland & Knight . Derek Walker, Vice President, US Climate - Environmental Defense Fund (EDF) . Jeanette Pablo, General Counsel & Senior Associate - Energy Futures Initiative <p>Register here</p> <p>Organised by: International Emissions Trading Association (IETA)</p> 	<p>The Role of Removals in Reach Net Zero</p> <p>Net Zero commitments are made by corporates, investors, countries, and cities around the globe. And one word which is part of every discussion are Carbon Removals. This session will shed light on the role of carbon removals in reaching Net Zero, what different approaches and technologies exist, are being developed and in what direction the carbon markets are expected to go.</p> <p>Moderator: Simon Henry, Carbon Market Development Director - IETA</p> <p>Speakers:</p> <ul style="list-style-type: none"> . Time CET	NOVEMBER 12th		
8:00 AM - 9:00 AM	<p>Carbon Markets in Australia: An Update on the Proposed Reforms Seeking to Unlock Low Cost Carbon Abatement Across the Economy</p> <p>In 2020, an expert panel (known as the King Review) released 26 recommendations for reforms to climate law and policy in Australia, the majority of which have been endorsed by the Australian Government. These aim to encourage greater participation in Australia's Emissions Reduction Fund (ERF), provide new incentives for voluntary emissions reduction and enable low emission technologies. Experts will assess the implications of these recommendations, their potential to unlock abatement in the harder to abate sectors of industry, transport and agriculture, and whether Australia is on track to achieve its first NDC.</p> <p>Moderator: Paul Curnow, Head of Sustainable Finance Practice - Baker McKenzie</p> <p>Speakers:</p> <ul style="list-style-type: none"> . Grant King, Chairman - HSBC Bank Australia . Susie Smith, Chief Executive - Australian Industry Greenhouse Network (AIGN) . James Schultz, Chief Executive and Co-founder - GreenCollar . Ilona Millar, Head of Global Climate Law & Finance Practice - Baker McKenzie <p>Register here</p> <p>Organised by: Baker McKenzie</p> <p>Baker McKenzie.</p>		
9:15 AM - 10:15 AM	<p>EU ETS Revisions to Meet Higher 2030 Target</p> <p>The European Commission has presented a range of policy design options to reach the 2030 emission target of -55%. The scenarios differ regarding the choice of the main instrument - ranging from a mainly regulatory scenario to a price based scenario with a strong Emission Trading System. Researchers from the project ARIADNE (www.kopernikus-projekte.de/projekte/ariadne) look at these scenarios from different perspectives and analyse their implications for economic efficiency, distributional effects, the market stability reserve and "harder" soft governance. Finally, we address the questions: What do decision makers now want/need to know? What further research do we need?</p> <p>Moderator: Mirjam Kosch, Researcher - Potsdam Institute for Climate Impact Research (PIK)</p> <p>Speakers:</p> <ul style="list-style-type: none"> . Dirk Weinrich, Head of Emissions Trading Division - German Federal Ministry for the Environment, Nature Conservation and Nuclear Safety (BMU) . Michèle Knodt, Professor - Technische Universität Darmstadt (TU) . Maximilian Willner, Chair of Environmental Economics - Uni Hamburg <p>Register here</p> <p>Organised by: Potsdam Institute for Climate Impact Research (PIK) / MCC</p>	<p>Joint Crediting Mechanism under Article 6 of the Paris Agreement: Designing for Higher Ambition and Sustainable Development</p> <p>While governments and businesses around the world take action to respond to and recover from the COVID-19 crisis, it is a critical moment for the world to "build back better" to redesign our economies and societies to become more sustainable, resilient, and inclusive. Article 6 is an important tool for raising ambition and accelerating actions against climate crisis. Although detailed rules are still being negotiated, with a good design and cooperation between countries and other stakeholders, we can make a greater impact on both climate change and sustainable development of societies.</p> <p>Moderator: Tatsushi Hemmi, Global Environment Dept. - Mitsubishi UFJ Research and Consulting</p> <p>Opening Address: Stefano De Clara, Director International Policy - IETA</p> <p>Speakers:</p> <ul style="list-style-type: none"> . Kazuko Yamaguchi, Chief Analyst, Global Environment Dept. - Mitsubishi UFJ Research and Consulting (MURC) . Maiko Uga, Section Chief, Office of Market Mechanisms /Office of Director for International Strategy on Climate Change - Ministry of the Environment, Japan (MOEJ) 	<p>Updates and Reforms to the New Zealand ETS (9:15 AM - 9:45 AM)</p> <p>This session will summarise New Zealand's reform of its emissions trading scheme and issues currently being worked through, including emissions from agriculture, and invite questions. The reforms include the introduction of an emissions cap, auctions, price control 'safety valves' and the role of the Climate Change Commission on ETS settings and emission budgets.</p> <p>Speakers:</p> <ul style="list-style-type: none"> . Todd Croad, Senior Policy Analyst - New Zealand Ministry for the Environment . Monique Page, Senior Policy Analyst - New Zealand Ministry for the Environment <p>Register here</p> <p>Organised by: New Zealand Ministry for the Environment</p>

Time CET	NOVEMBER 12th		
11:00 AM - 12:00 PM	Opportunities and Challenges for Carbon Pricing Across Sectors Achieving net zero requires rewiring the global economy, including fundamental technological and structural change across all sectors. Whether agriculture or transport, electricity or industry, each sector faces unique challenges to decarbonize while simultaneously addressing competitiveness concerns and distributional impacts. However, driving down GHG emissions also provides opportunities, particularly around new approaches to production and consumption. This plenary will explore how sectors will need to evolve and adapt to achieve net zero targets, and how carbon pricing fits into the puzzle. Moderator: Sarah Moarif , Head of Environment and Climate Change Unit, IEA Speakers: . Karen Palmer , Senior Fellow & Director, Future of Power Initiative - Resources for the Future (RFF) . Anthony Hoble , Executive Director Mission Possible Platform - World Economic Forum (WEF) . Carrie Harris , Group Sustainability Manager - International Airlines Group (IAG) . Steve Schofield , Senior Adviser Climate & Energy Policy, International Government Relations - Shell Register here Organised by: International Carbon Action Partnership (ICAP) & International Emissions Trading Association (IETA) 		
12:00 PM - 12:30 PM	Carbon as an Investable Asset Class ESG investing is enjoying a surge in popularity, which has led to a rise in interest in carbon allowances or offsets as an asset class. This panel discussion will feature two experts involved in products that directly invest in carbon markets, with the speakers discussing the increase in investment firms looking to either gain exposure to national/regional decarbonisation efforts, or those which are simply looking to 'green' their portfolios. We will also examine what options investors have at the moment, and we'll look at some of the risks, including the wild volatility that has come to characterise many of the world's carbon markets, as well as their lack of maturity and/or liquidity. Moderator: Mike Szabo , Founder and Director - Carbon Pulse . Mike Azlen , Founder and CEO - Carbon Cap Management . Eron Bloomgarden , Founder and Partner - Climate Finance Partners Register here Organised by: Carbon Pulse		
12:30 PM - 1:30 PM	Carbon Pricing in Sub-Saharan Africa Presentation of a recent KAS report entitled Carbon Pricing in Sub-Saharan Africa and examination of the report's findings with respect to the 'appropriateness' of carbon pricing mechanisms, as between developing and developed countries. Discussion on potential recalibration on EU climate-development policy nexus. Moderator: Anja Beretta , Head of African Regional Climate Change and Renewable Energy Programme - Konrad Adenauer Stiftung	Resilient Recovery through Fossil Fuel Subsidy Reform It is critical to align climate ambitions with socioeconomic priorities. Unlocking revenues dedicated to fossil fuel subsidies can stimulate Paris Agreement-consistent COVID-19 recovery. This session highlights the role that energy price reform plays to increase ambition on climate change, as well as build back better from the current pandemic. Moderator: Philip Gass , Lead, Transitions - IISD	Carbon Pricing and Shipping: Past, Present and Future This webinar will look at the history of carbon pricing for international shipping, the options on the table for the IMO, and the outlook for the upcoming years, with panellists discussing what needs to happen for shipping to decarbonise in line with the Paris Agreement and how carbon pricing can support this transition. Moderator: Isabelle Rojon , Consultant - University Maritime Advisory Services

1:45 PM - 2:45 PM	<p>Mainstreaming Sustainable Development in Carbon Markets</p> <p>Sustainable development (SD) is gaining traction among all stakeholders of markets – investors, governments and project beneficiaries. This event features presentations on how SD in carbon markets has evolved - within negotiations under the UNFCCC as well as in domestic policy planning.</p> <p>Moderator: Karen Holm Olsen, Senior Researcher - UNEP-DTU</p> <p>Speakers: . Sven Braden, Independent Consultant - Sustainable Development Initiative (SDI) . Owen Hewlett, Chief Technical Officer - Gold Standard Foundation . Ana Lucia Moya Mora, Ministry of Environment and Energy - Costa Rica</p> <p>Register here Organised by: Gold Standard & UNEP DTU</p>  	<p>From ERPA to MOPA: Practical Application of Article 6 Guidance to ITMO Transfers</p> <p>The Paris Agreement, with associated NDCs, has changed the structure of international carbon transactions. In this session we will share findings from the Swedish Energy Agency-funded MATS Program, around the more challenging aspects of contracting under Article 6. Particular aspects of focus will include Attribution, Corresponding Adjustments, Payment Timings and Authorisation. Tied to this, we'll hear the Multilateral Development Bank point of view of how they are using SEA funding to help open markets under Article 6.</p> <p>Moderator: Fenella Aouane, Principal Green Finance Specialist - GGGI</p>  	<p>Update on The Taskforce on Scaling the Voluntary Carbon Markets</p> <p>The Taskforce on Scaling Voluntary Carbon Markets is a private sector-led initiative working to scale an effective and efficient voluntary carbon market to help meet the goals of the Paris Climate Agreement. This event will summarise progress made to date and describe next steps outlined in its interim report, to be published on the 10th November. The interim report will go through a public consultation process before the final report and recommendations are released in January 2021.</p> <p>Moderator: Katie Sullivan, Managing Director - IETA</p>

4:45 PM - 5:45 PM	<p>How to Retire Early: Carbon Pricing and Accelerating Coal Phase-out</p> <p>To meet the Paris goals, coal must be phased out as quickly as possible. As the economics of renewables improve, existing coal plants are becoming increasingly uncompetitive. This session explores how international financial institutions could accelerate the replacement of coal plants with clean energy, while also ensuring a just transition – and discusses the potential role that carbon financing could play in the process. We propose a brief overview of our recently published paper “How to Retire Early” from Rocky Mountain Institute, Sierra Club, and Carbon Tracker Initiative, followed by a moderated panel discussion. We will reserve significant time for questions from the audience.</p> <p>Moderator: Uday Varadarajan, Principal, Rocky Mountain Institute</p> <p>Speakers:</p> <ul style="list-style-type: none"> . Carbon Tracker Initiative . Stephan Hoch, Managing Director, Perspectives Climate Group <p>Register here</p> <p>Organised by: Rocky Mountain Institute</p>		
	<p>Border Carbon Adjustments (BCAs) Key Hurdles and Design Questions</p> <p>Once largely relegated to the economics literature but dismissed as a policy option, BCAs have taken centre stage in the debate on Europe’s 2030 climate ambitions. Attention is now turning to the concrete details of key design elements. This has brought us closer than ever before to understanding the major hurdles in designing and implementing a BCA, the potential trade law implications. This panel discussion will dive into compliance with World Trade Organization rules, rebates for domestic exports, continued free allocation, deductions based on climate policies in the jurisdiction of origin, and sectoral scope.</p> <p>Moderator: Chris Kardish, Project Manager - adelphi</p> <p>Speakers:</p> <ul style="list-style-type: none"> . Time CET	NOVEMBER 12th		
4:45 PM	Carbon pricing, A Cost-Effective Opportunity to Accelerate the Decarbonisation in the Power Sector		
-	Carbon pricing policies play a crucial role in accelerating power sector transitions. However, the structure and design of electricity markets largely determines the role for a carbon price to deliver least cost abatement.		
5:45 PM	<p>This session looks at how carbon pricing supports electricity sectors at different stages of transition. Leading experts and practitioners from the public and private sectors will take stock of the challenges and achievements to date, and discuss the future role for carbon pricing in their systems.</p> <p>Moderator: Sara Moarif, Head of Climate Change Unit, IEA</p> <p>Speakers:</p> <ul style="list-style-type: none"> . Mandy Rambharos, Head of Climate Change and Sustainable Development - ESKOM . Felix Matthes, Research Coordinator Energy and Climate Policy - Oeko-Institut . 5:45 PM	Carbon Pricing on the Road to Net Zero		
-	Within the next three decades, we must transition away from a 200-year reliance on fossil fuels to net zero emissions. This will require both deep decarbonisation across all sectors of the economy as well as massive removals of emissions already existing in the atmosphere. Jurisdictions around the world continue to announce net zero targets. However, the rules, policies, and business models that will achieve net zero are still open to debate. As the final plenary of the Carbon Market Virtual Pavilion, this session features leading administrators of different, established carbon markets as well as global business visionaries to gain their perspective on what role carbon pricing can play in achieving net zero emissions.

We would like to thank our Main Partner Sponsors:

Federal Ministry for Environment, Nature Conservation and Nuclear Safety (BMU)

BMU is responsible for a range of government policies that are reflected in the name of the ministry itself. The ministry has been working over 30 years now to protect the public from environmental toxins and radiation and to establish an intelligent and efficient use of raw materials, to advance climate action and to promote a use of natural resources that conserves biodiversity and secures habitats.

www.bmu.de

Carbon Finance Labs

We are finance and technology professionals who want to be part of the climate change solution. We have worked in carbon finance, technology and commercial development. Our small team's impact comes from a global network of resources and applied knowledge built over decades in the carbon, finance and technology sectors.

www.carbonfinancelab.com

World Economic Forum

The World Economic Forum is the International Organization for Public-Private Cooperation. The Forum engages the foremost political, business, cultural and other leaders of society to shape global, regional and industry agendas. This includes accelerating actions on climate change and environmental sustainability in the Platform for Global Public Goods.

www.weforum.org

World Business Council for Sustainable Development (WBCSD)

WBCSD is a global, CEO-led organization of over 200 leading businesses working together to accelerate the transition to a sustainable world. WBCSD makes its member companies more successful and sustainable by focusing on the maximum positive impact for shareholders, the environment and societies. WBCSD member companies come from all business sectors and major economies.

www.wbcsd.org

We would like to thank our Session Sponsors:

AirCarbon

AirCarbon is a regulated, blockchain-based, commodities exchange for carbon. We make carbon trading frictionless through our SPOT and Futures markets. This allows hedge funds, carbon developers, and other organizations to use market-based mechanisms to manage their carbon emissions in a transparent, low-cost, and high liquidity environment.

www.aircarbon.com

Baker McKenzie

Market disruption is an accepted reality for business, as new competition and technologies drive the pace of change faster than ever before. Our clients want lawyers who are prepared to lead, differentiate and adapt in a constantly changing world. As the original global law firm, we bring the right talent to every client issue. We partner with our clients to deliver solutions in the world’s largest economies as well as newly opening markets. Our strength is our ability to adopt a new type of thinking and use cutting-edge legal technologies to help clients overcome the challenges of competing in today’s new world economic order.

www.bakermckenzie.com

Climate Legal

A specialist climate change, carbon markets and environmental legal consultancy. We counsel a broad range of clientele on traditional environmental regulatory matters, and environmental resource protection and remediation obligations. Our vision is to see climate change regulatory developments flourish across the continent, advancing in their ambition and complexity over time, as part of a sustainable future.

www.climatelegal.co.za

Global Carbon Council (GCC)

The Global Carbon Council (GCC), an initiative of Gulf Organisation for Research and Development (GORD), is a voluntary carbon offsetting program that aims to assist the organisations reduce their carbon footprints, help sectoral economy to diversify by adopting low-carbon pathways and catalyze climate actions on ground.

www.globalcarboncouncil.com

Global Green Growth Institute (GGGI)

Based in Seoul, GGGI is a treaty-based international, inter-governmental organization that supports developing country governments transition to a model of economic growth that is environmentally sustainable and socially inclusive. GGGI delivers programs for its Members and partners to strengthen climate action and mobilize green investments.

www.gggi.org

Gold Standard

Gold Standard was established in 2003 by WWF and other international NGOs to ensure projects that reduced carbon emissions featured the highest levels of environmental integrity and also contributed to sustainable development. With the adoption of the Paris Climate Agreement and the SDGs, we launched a best practice standard for climate and sustainable development interventions, Gold Standard for the Global Goals, to maximise impact, creating value for people around the world and the planet we share.

www.goldstandard.org

Konrad-Adenauer-Stiftung (KAS)

The Konrad-Adenauer-Stiftung (KAS) is a political foundation. In Germany, 16 regional offices offer a wide variety of civic education conferences and events. At home as well as abroad, our civic education programs aim at promoting freedom and liberty, peace, and justice. We focus on consolidating democracy, the unification of Europe and the strengthening of transatlantic relations, as well as on development cooperation.

www.kas.de

Mitsubishi UFJ Research and Consulting

Mitsubishi UFJ Research and Consulting

MURC manages the affairs of its subsidiaries within the group and the business of the group as a whole along with all relevant ancillary business. The corporate vision serves as the basic policy in conducting our business activities, and provides guidelines for all group activities. MURC's mission is to be a foundation of strength, committed to meeting the needs of our customers, serving society, and fostering shared and sustainable growth for a better world.

www.murc.jp

Ministry of the Environment Government of Japan (MOEJ)

The Ministry of the Environment is a Cabinet-level ministry of the government of Japan responsible for global environmental conservation, pollution control, and nature conservation. The ministry was formed in 2001 from the sub-cabinet level Environmental Agency established in 1971.

www.env.go.jp

NCS Alliance

The Natural Climate Solutions (NCS) Alliance aims to scale up affordable natural climate mitigation solutions for achieving the goals of the Paris Agreement on climate change. These include; reforestation protection and conservation, livestock, animal and land management, and coastal wetland and peatland restoration, among a wide array of cost-effective solutions.

www.weforum.org/natural-climate-solutions-alliance

Norwegian Ministry of Climate and Environment

The Norwegian Ministry of Climate and Environment has the main responsibility for ensuring integrated governmental climate and environmental policies. Environmental challenges are complex and affect all actors in society. Developments in the various sectors are largely determined by sectoral policies. In efforts to create sustainable development, environmental considerations need to be integrated into policy making in all areas of society.

www.regjeringen.no

Partnership for Market Readiness (PMR)

The PMR is a forum for collective innovation and action and a fund to support capacity building to scale up climate change mitigation. It provides support to prepare and implement climate change mitigation policies—including carbon pricing instruments—in order to scale up GHG mitigation. The PMR serves as a platform to share lessons, countries work together to shape the future of cost-effective GHG mitigation.

www.thepmr.org

South Pole

At South Pole, we work with businesses and governments across the globe. We help realise deep decarbonisation pathways across industries, based on a thorough understanding of climate risks and opportunities in specific sectors, as well as the highest emission reduction standards. Our Purpose: We act today for a better tomorrow. Our Vision: Climate action for all. Our Mission: We accelerate the transition to a climate-smart society.

www.southpole.com

SOFOPA (Sociedad de Fomento Fabril)

SOFOPA nació en 1883 como la Sociedad de Fomento Fabril, con el objetivo de promover la industria manufacturera de Chile. Desde entonces ha evolucionado hasta constituirse en la más importante, representativa y diversa institución empresarial del país. Nuestra misión es de validar a la empresa como un actor confiable y relevante en el proyecto de hacer de Chile un país más desarrollado, moderno e inclusivo.

web.sofofa.cl

Standard Chartered

We are a leading international banking group, with a presence in 60 of the world's most dynamic markets and serving clients in a further 85. Our purpose is to drive commerce and prosperity through our unique diversity, and our heritage and values are expressed in our brand promise, Here for good. Standard Chartered PLC is listed on the London and Hong Kong Stock Exchanges.

www.sc.com

StratCarbon

StratCarbon Ltda. is a consulting company created in 2017 by Christian Patrickson, aimed at providing high-quality consulting services on climate change to private companies, governments and NGOs. The mission of the company is to make a positive and significant contribution in the transition process towards a low-carbon world economy.

www.stratcarbon.cl

Swedish Energy Agency (SEA)

With offices in Stockholm and Eskilstuna, The Swedish Energy Agency is a governmental body which promotes climate smart energy research via grants as well as business development support for energy related innovations. It has long been the home of Sweden's expertise on emissions markets, including the EU-ETS, the Kyoto Protocol's flexible mechanisms, and now Article 6 of the Paris Agreement.

www.energimyndigheten.se

WORLD BANK GROUP

World Bank

The World Bank mission is to end extreme poverty and boost shared prosperity around the world. These goals cannot be met if we do not tackle climate change. The Bank Group is as committed as ever to the climate agenda and helping countries meet the goals of the Paris Agreement, including through financing, technical assistance, and knowledge sharing. The institution is also a leader in shaping the next generation of climate finance and markets.

www.worldbank.org

Co-Organisers

**About ICAP**

The International Carbon Action Partnership (ICAP) is an international forum for governments and public authorities that have implemented or are planning to implement emissions trading systems (ETS). ICAP facilitates cooperation between countries, sub-national jurisdictions and supranational institutions that have established or are actively pursuing carbon markets through mandatory cap and trade systems.

Founded in 2007 in Lisbon, Portugal, by leaders of more than 15 governments, ICAP provides the opportunity for member jurisdictions to share best practices and discuss ETS design elements with a view to creating a well-functioning global carbon market through linking ETS. The work of ICAP focuses on the three pillars of technical dialogue, ETS knowledge sharing and capacity building activities.

ICAP's objectives are:

- . Share best practices and learning from each other's experience of ETS
- . Help policymakers recognize ETS design compatibility issues and opportunities for the establishment of an ETS at an early stage
- . Facilitate future linking of trading programs
- . Highlight the key role of emissions trading as an effective climate policy response
- . Build and strengthen partnerships amongst governments

Contact: William Acworth, Head of Secretariat

william.acworth@icapcarbonaction.com . www.icapcarbonaction.com

**About IETA**

The International Emissions Trading Association (IETA) is a non-profit business organisation created in June 1999 to establish a functional international framework for trading in greenhouse gas emission reductions. Our membership includes leading international companies from across the carbon trading cycle. IETA members seek to develop an emissions trading regime that results in real and verifiable greenhouse gas emission reductions, while balancing economic efficiency with environmental integrity and social equity.

Our vision is to be the trusted business voice on market-based climate solutions. IETA's mission is to empower business to engage in climate action, advancing the objectives of the UNFCCC and the Paris Agreement as informed by IPCC science, and establish effective market-based trading systems for greenhouse gas (GHG) emissions and removals that are environmentally robust, fair, open, efficient, accountable and consistent across national boundaries.

IETA's objectives: We aim to achieve our mission by using our expertise to:

- . Promote an integrated view of carbon markets and pricing as a solution to climate change;
- . Participate in the design and implementation of national and international rules and guidelines; and
- . Provide the most up-to-date and credible information on emissions trading, GHG market activity and market-based solutions to climate change.
